

# Triangle Walks

## Fever Ray

An apple and a berry plant  
Comes with a house  
On the grass, who is that  
To come by my house Stands outside my window  
Sucking on the berries  
And eats us out of house and home  
Keeping us awake, keeping us awake Can I come over, I need to rest  
Lay down for a while  
Disconnect the night was so long  
The day even longer  
Lay down for a while recollect Five AM out again  
Triangle walks  
Magpies, I throw sticks at them  
They laugh behind my back Getting a feeling  
Maybe I will dream again  
Having that feeling  
When there's no one awake  
No no one awake Can I come over, I need to rest  
Lay down for a while  
Disconnect the night was so long  
The day even longer  
Lay down for a while recollect
