

All I Want

Lynch Mob

Every night when you go out walking
Every step you take keeps me yearning for some more
Those green cat-eyes pull me down inside
And your jelly lips can't push me away, no'Cause baby, when we're alone
Everything's alright
And baby, right or wrong
So let me give you some lovin' on my own That's all I want you know that's all I need
You know that one thing that brings me to my knees
That's all I want you know that's all I need
Is to call you all my own Yeah, you know it seems pretty crazy
When your dad told me I was headed for the killin' floor
But I just can't deny what I feel inside
You know when twelve rolls around
I'll be knocking at your bedroom door Baby, when we're alone
Everything's all right
And baby, right or wrong
Let me give you some lovin' on my own That's all I want you know that's all I need
You know that one thing that brings me to my knees
That's all I want you know that's all I need
Is that one thing to call, yeah, yeah Baby, when we're alone, yeah
Everything's just fine
And baby, right or wrong
Let me give you some lovin' on my own, yeah, yeah That's all I want you know that's all I need
You know that one thing that brings me to my knees
That's all I want you know that's all I need That's all I want you know that's all I need
You know that one thing that brings me to my knees
That's all I want you know that's all I need
Is that one thing, you know that one thing
Is to call you all my own
