

# Send Down The Spirit

Chris Delvan Gwamna

(Instrumental)

Send down the spirit of the Lord  
Send down the spirit from above  
Let your power flow  
On each and everyone  
Let the holy ghost  
full of compassion come  
So we might know that you are here  
So we might know that you are real

Send down the spirit of the Lord  
Send down the spirit from above  
Let your power flow  
On each and everyone  
Let the holy ghost  
full of compassion come  
So they might see that you are here  
So they might know that you are real

Send down the spirit of the Lord  
You're filling us with the knowledge his word  
Let your anointing fall  
To break down every yoke  
And let your own spirit come  
Confirming my every word  
So we might know that you are here  
So the world might know that you are here  
So the world might know that you are here  
So the world might know that you are here

Send down the glory from the Lord  
Fill us with the presence of your love  
Let your anointing come  
To set the captives free  
And let the wonder of the glory  
Reveal to us today  
Into the glory of your name  
Into the glory of the Lord  
Into the glory of your name

Into the glory of the Lord

Hallelujah

(We've overcome this world)

Hallelujah

(Because you hear us when call)

Hallelujah

(We've overcome this world)

Hallelujah

(Because you hear us whenever call)
