Go Without

Sunny Levine

Im looking where to go

Everybody building railroads

i guess ill never know

come at it slow like a stage coach

that city donâ€™t have no manners

all that anti me propoganda

if it made a lick of sense, id admire you kander

like, why donâ€™t you go and make some new standards

thats all i wanna know

its all i wanna think about

thats all i wanna know

i donâ€™t wanna go without

go without

how high, or world weary could i seem if you were leaning next to me

ill bet that your lost in your head

Iâ€™m solid in things

Iâ€™m lucky i donâ€™t know that everyones trying to play it close

ill keep you on my mind baby

till you fall back in line maybe

thats all i wanna know

its all i wanna think about

thats all i wanna know

i donâ€™t wanna go without

go without

if we were playing chess little girl

wouldnâ€™t you spend a night on each word

i know i done my best little girl

just waitin out west in the world

Im looking where to go

Everybody building railroads

i guess ill never know

come at it slow like a stage coach

thats all i wanna know

its all i wanna think about

thats all i wanna know

i donâ€™t wanna go without

go without
