Rock Love

Utopia

I seen these big shots all come and go
Been there myself and there's one thing I know
You got to choose your heroes, choose them well
They could be leading you straight into hellLet me be your protection
Keep the vampires off your neck
Sample your wine and stay so near
That you'll never have a thing to fearGet thee behind me Satan
Big as a mountain, strong as a diamond
Rock love
Bright as a nova burning forever
Rock love
Close as a heart beat, free as the water
Rock love
Get thee behind me SatanI see the same damn faces in the news
Taking up sides when there ain't nothing to choose
I think their game is just designed to confuse
They cut the pie up and the rest of us loseLet me be your advisor
Keep the monkeys off your back
Figure your taxes, stay up all night
Making sure that everything is rightGet behind me Satan
Big as a mountain, strong as a diamond
Rock love
Bright as a nova burning forever
Rock love
(Spin it like a rock now)
Close as a heart beat, free as the water
Rock loveIt seems like only yesterday
Remember when I used to say
I knew we'd be in vogue someday
Rock love is love and not fade awayLet me be your protection
Keep the vampires off your neck
Sample your wine and stay so near
That you'll never have a thing to fearGet behind me Satan
Big as a mountain, strong as a diamond
Rock love
Bright as a nova burning forever
Rock love
(No, you got to rock love)
Close as a heart beat, free as the water

Rock love, rock loveBig as a mountain, strong as a diamond
Rock love
Bright as a nova burning forever
Rock love
Close as a heart beat, free as the water
(Got to be rock steady, got to be rock steady)
(Got to be rock steady)
Rock loveBig as a mountain, strong as a diamond
Rock love
[Incomprehensible]
Bright as a nova burning forever
Rock love
Close as a heart beat, free as the water
(Can you beat it? Can you beat it?)
(Can you beat it?
Rock loveBig as a mountain, strong as a diamond
(Strong as a diamond, strong as a diamond)
Rock love
(Put your hands all around)Strong as a diamond, burning forever
Rock love
Close as a heart beat, free as the water
Rock love
Big as a mountain, strong as a diamond
Rock love
(You let the [Incomprehensible] now)Strong as a diamond, burning forever
Rock love
Close as a heart beat, free as the water
Rock love
Big as a mountain, strong as a diamond
Rock love
Bright as a nova burning forever
Rock love
