

# Never Forget

[Paul van Dyk](#)

Come on baby, could you ever be  
Just a little close to me  
Ooh ooh ooh  
Could we ever forget tonight?  
Come on baby, let's take a stroll  
You're feelin' warm so don't be cold  
Ooh ooh oh  
We'll never forget tonight  
What a wonderful night to be  
The stars must be my friends  
To shine for me  
Come on baby, now don't you be cold  
Just remember that love is gold  
Ooh ooh  
We will never forget tonight
