

All Over You

rumHoney

Don't wanna have to be your secret lover.
Don't wanna have to be your other man.
Don't wanna be here just to help you recover.
No quick five minutes with me on demand.

Woo - oh I'm all over you

Don't wanna have to be your special something.
Your light relief from another long day.
Don't wanna wait here for a chance of nothing.
I want you girl. I'm gonna take you away.

Woo - oh I'm all over you

Don't wanna have to be your secret lover.
I make the effort with you all of the time.
I get the feeling i'm just fun to discover,
Then take another from the production line.

Woo - oh I'm all over you
