

# Killing the Light

## Black Rebel Motorcycle Club

She said, "You're killing the light  
You'll never see it again"  
"We come to suffer", I said  
"I won't be fooled by the light  
I won't be fooled by the lie" The easy road lies in wait  
Takes its toll and all it desires  
Leads you blind, leaves you there  
Takes your heart and leaves you in silence Ooh, look what you've started  
Ooh, look what you've started  
Ooh, look what you've started  
Ooh, we're all broken hearted She said, "Don't leave us behind  
We'll never be here again  
Our lives are closer this way  
I won't be fooled by the light  
I won't be fooled by the lie" The easy road lies in wait  
Takes its toll and leaves you in silence  
Leads you blind, leaves you there  
Takes your heart and all that you wasted Ooh, look what you've started  
Ooh, look what you've started  
Ooh, look what you've started  
Ooh, we're all broken hearted
