Here it comes
Just like the war before
Without warning
So it goes I'm still in love
I didn't make it this far to give up
I'm holding on if you won't let go CHORUS
Every time we fall
It's harder to get over
Harder to recover
Backs against the wall
Feel your heart shake
Feel your heart shudder
Bend it til you break it
Every time we fall Skipping steps
Overlooking the obvious
Dressing up the same old regrets
Time to clean up the mess CHORUS I'm still in love
I didn't make it this far to give up
I'm holding on if you won't let go CHORUS
