

I Want You

Great White

I don't want the rap that yer layin'
Don't give me no abuse
I don't want no motormouth jivin'
Another lame excuse I don't want my head to keep sayin'
Oh baby, what's the use
I don't want no patter, no way
I want you I don't want no momma's son preyin'
To strip me to the bone
I don't want no hustle today
Leave my vibe alone I don't want to worry 'bout nothin'
There's nothin' I must own
I don't want to deal that way
I want you I love lovin'
Oh yeah, lovin' is fine
Why no love?
Why waste your time? Gotta give it someway
Can ya hold out alone?
Oh, just a little lovin'
It's alright, let it go Oh, I don't want another dog makin'
Another big pretense
I don't wanna be brought down
On a capital offense I don't want no pressure drop baby
Don't make it so intense
I don't want no promise, no way
I want you It's only lovin' baby
Get it back down the road
Yes it comes back
Like a magic mother lode Make a lovin' man
Make him know it's alright
Oh, that givin' love
Gonna get us thru the night I don't want the song you keep playin'
All lovers are insane
I don't want my heart to be breakin'
I want you I don't want the trouble of lovin'
And here it comes again
I don't want the game you like playin'
I want you
