

# Do We Need This?

## Muse

Too many young and too many old  
Too many people left you in the cold  
You want everything to change  
'Cause you are afraid of losing Too many distant, she's on a screen  
He's only alive inside a machine  
We want everything to change  
'Cause you are afraid of losing Tell me, do you really need this?  
And tell me, do you really care?  
And tell me, do you really need this?  
And tell me, do you really care? I don't think you really need this  
I don't think you really care  
And I don't think you really need this  
And I don't think you really care Too many young and too many old  
Too many people left you in the cold  
You want everything to change  
Now, I'm so afraid of losing
