

Seashells and Bluebells

John Southworth

And when we kiss, beside the sea
Well I always fall into a pretty dream
And when we dance, under the stars
Well I feel so free and happy in my heart
Looks like we'll never part

There'll be seashells and bluebells and beautiful angels
Oh in my dreams tonight
And these seashells I follow will lead to a hollow
Where you will wait inside.
Seashells and bluebells, long may I find
The most beautiful seashells and bluebells
Under my dreams at night

And when I look into your eyes
Well I always hear sweet music in my mind
And when we lie under the moon
We will gaze upon the bluebells as they bloom
Look what our love can do

There'll be seashells and bluebells and beautiful angels
Oh in my dreams tonight
And these seashells I follow will lead to a hollow
Where you will wait inside
Seashells and bluebells, long may I find
The most beautiful seashells and bluebells
Under my dreams at night
The most beautiful seashells and bluebells
Under my dreams at night
