## Anathema

Above the clouds  
We flew to heaven  
Through the eye of storm  
and into to the lightI see you  
You're everywhere I go  
In everything I doI dreamed a thousand years  
Just to be here where everything is right  
Scrape those screamless skies  
Defy the limits and flyI see you  
You're everywhere I go  
In everything I do
