

Cul de Sac

Teenage Fanclub

Should I just keep rolling all over this town
Among the buildings and amid the sound?
Feels like I've been waiting this whole season through
Motivation is fading tooGot no expectation, no shadow to cast
No reputation's prepared to last
Free to just keep going and wander on through
The sleeping streets in the morning dewAnd it's no good, it's no good, it's no good
And it's no good, it's no good, it's no goodSeems like I've been waiting this whole season through
Compensation is overdueAnd it's no good, it's no good, it's no good
And it's no good, it's no good, it's no good
And it's no good, it's no good, it's no good
And it's no good, it's no good, it's no good
