

Now Is Mine

K's Choice

My past, my future, my disease
Perhaps collapse
To make me seize a moment
Just a breeze Grateful, humble, I allow
These words to be
The past somehow
I wonder
Am I here now?
Am I here now?
I feel, hear, see and
It confuses me I am wrong
I am here
Now is mine
I'll take it
All around the world
Take my future
Past, it's fine
But now is mine My precious present
Will you bloom?
To make this fourth
Dimension womb
Stop asking
Stop asking why All I know is all I am
Will never fully understand
My breathing
I try, how I try to feel, hear
See and it confuses me I am wrong
I am here
Now is mine
I'll take it all
Around the world
Take my future
Past, it's fine
But now is mine
