

Girlfriend

Hope Partlow

I ring your bell but you're gone
I say hello but all I get is goodbye
Yeah, you ain't got the time for me
Baby, if you let me in
I'll be the best girlfriend that you'll ever find
I got something in mind, you'll see
So come on and get it
Ooh, I know you won't regret it
Baby, just maybe we should get together now
So come on, won't you tell me when
I can be your girlfriend?
Now other girls'll lead you on
But I just wanna have some fun
So I'm tellin' you boy
"What you see is what you get with me"
Talkin' 'bout just one kiss can you handle this
Well come on and get it
Oh, I know you won't regret it
Baby just maybe we should get together now
So come on, won't you tell me when
I can be your girlfriend?

So come on
Everything is alright
Oh, oh, don't be shy
'Cause you know, you could live a little if you try
So come on and get it
Oh, I know you won't regret it
Baby just maybe, we should get together now
So come on won't you tell me when
I can be your girlfriend?
Now other girls'll lead you on
I just wanna have some fun
So come on won't you tell me when
I can be your girlfriend?
I can be your girlfriend?
I can be your girlfriend?
You could live a little if you try
I can be your girlfriend

I can be your girlfriend
I can be your girlfriend
You could live a little if you try
