Message Failed

[Lyrix](#)

[Intro]Trying to copy & paste
But your drive like the system
It fails[Verse 1: Lyrix]
If you reboot
If you try
There won't be a need for you to multiply
If you care
It's not a dare
Increase your ram just apply
Give it all you got inside[Pre Chorus]I got something
Trying to tell ya
Wanna show ya
How I feel inside
Cause when I try to deliver
You don't get it
Message failed[Chorus]You chose to lose (to lose)
You chose to lose
You chose to lose yeah hey hey[Verse 2: Lyrix]Try to download
What I'm saying
Don't freeze just kick back & tune in
Be aware
It's coming
We've lost our signal
Can't believe we're crushing
Don't say I didn't warn ya
And if I didn't warn ya
I don't feel well
I think I have a virus[Pre Chorus][Chorus][Bridge]Dialing, dialing, dialing
I'm dialing, the static
Static, message failed
I strive to see
I'm gonna climb
I'm gonna get on top yeah
I'm gonna go
I'm gonna fly
I'm gonna make my mark, yeah
While you choose
You can lose
Browse your life away, ha?!

Left a note
Here's goodbye
Why won't I see ya later[Pre Chorus]
