

Better Life

Vega 4

Something that she said has got me
Dreaming like I'm you
I'm buzzed up like a neon red light
Feeling blown out fuse Now you made me think of something new
Before it's not too late
Now you called me back to Realville Town
Now I'm falling out Hey hey hey, it's alright It's alright, we can fly
Reaching for a better life
It's alright
The good will come around And you spit me out, you made me dream
You played for keeps again
Now you know I tired and broken feeling
That I feel gives me hell Now it's something that she said has
Got me dreaming like I'm you
I'm buzzed up like a neon red light
Feeling blown out fuse Hey hey hey, it's alright It's alright, we can fly
Reaching for a better life
It's alright
The good will come around And it's alright, we can fly
Somewhere there's a better life
It's alright
The good will come around And if you believe
The music will take you home again
Love if you believe
The music you're home And it's alright, we can fly
Reaching for a better life
It's alright
The good will come around Yeah it's alright, we can fly
Somewhere there's a better life
It's alright
The good will come around Yeah it's alright
Somewhere there's a better life
It's alright
The good will come around
