Better Than You

Kate Alexa

Somehow you became a habit
I did nothing about it, so nothing changed
And my feelings fading down to empty
Light enough to slowly float awayAll the times that we've been through
I can't go backwards to get back to youChorus.
And it's over, over And it's so much better
I won the fight to the other side And I finally see the truth
And I'm breathing, breathing
You were so deceiving
But I found someone who's so much better
Better than youVerse 2.
'Cause he shines a whole different kind of light
On all the hazy bad times in my memory
I wonder why I never bothered
To look behind the shutters that covered that miseryAll the distance must be good
I wouldn't miss us even if I couldChorus.
'Cause it's over, over And it's so much better
I won the fight to the other side And I finally see truth
And I'm breathing, breathing
You were so deceiving
But I found someone who's so much better
Better than youBridge/middle 8
It's a whole new life
And I'm sick of fighting
To forget those times
I shared with youChorus.
'Cause it's over, over And it's so much better
I won the fight to the other side
And I finally see truth
And I'm breathing, breathing
You were so deceivng
But I found someone who's so much better
Better than you
