

# Lay Down

## Panda Electric Garden

Please lay down  
your head on my shoulders  
Close your eyes  
for me there is no other  
Can't you see  
the world is full of colors  
Take my hand  
and just come closer...Closer to my head  
Sorry for the things I've done...said...  
It wasn't lie  
Closer to my head  
Sorry for the things I've done...said...  
It wasn't lie There is a place  
for people like us  
A magical place  
where we can heal our (cards ?)  
So hard to believe  
but heat take ( strass ? )  
We will fight to not be over crushed Closer to your vane  
Sorry for the things I've done...said...  
It wasn't lie  
Closer to my bane  
Sorry for the things I've done...said...  
It wasn't lie
