She Wore Shadows

ASP

She is swaying like the morning haze
Don't make a mistake
And her skin glows like the summer moon
She moves like a snakeHer eyes get lost in the green maze
She'll get you, she'll get you
You got too deep inside too soonShe's so superior, goddess
She's so superior, Elven queenShe wore shadows, she wore shadows
She wore shadows, shadows and skin
She wore shadows, she wore shadows
Nothing but shadows, shadows and skinShe is naked and she doesn't care
Don't look in her eyes
With the self assurance of a queen
A beast in disguiseShe is more than you can ever bear
She'll hunt you, she'll hunt you
Born to kill your self esteemShe's so superior, goddess
She's so superior, Elven queenShe wore shadows, she wore shadows
She wore shadows, shadows and skin
She wore shadows, she wore shadows
Nothing but shadows, shadows and skinShe looks at you, you can't resist
She'll hunt you, she'll get you
And she will take you by the wrist
Imprisoned and intoShe'll take you to another place
Oblivion, you'll fall
And you'll be lost without a trace
Sense nothing at allShe wore shadows, she wore shadows
She wore shadows, shadows and skin
She wore shadows, she wore shadows
Nothing but shadows, shadows and skinShe wore shadows, she wore shadows
She wore shadows, shadows and skin
She wore shadows, she wore shadows
Nothing but shadows, shadows and skin
