

Playing With Fire

Darin

I wait I turn
Things are heating up
But I keep looking at her I see your curves
We don't need no water
We can just let it burn Is it me or is it getting hot in here
You keep touching on me
But I don't care
This ain't where you want me
I want you, yeah You'll see tonight
We'll leave tonight
You'll fall tonight
Yeah I can feel it heating up You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire I can feel it heating up
I can make you fall in love You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire The nerve of me
To want your body all over me
Gimmie the third
Degree
Baby I can't wait to see
Is it me or is it getting hot in here
You keep touching on me
But I don't care
This ain't where you want me
I want you, yeah You'll see tonight
We'll leave tonight
You'll fall tonight
Yeah I can feel it heating up You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire You keep playing with fire
You keep playing with fire
You keep playing with fire

You keep playing with fire I can feel it heating up
I can make you fall in love You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire Is it me or is it getting hot in here
I can feel it heating up
I can make you fall in love You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire I can feel it heating up
I can make you fall in love You keep playing with fire
You keep playing with fire
You keep playing with fire
You keep playing with fire
