

Champion

Grinspoon

So you wanna be a champion
Let's not beat around the bush
I got my hands in the air
With my head down look
Disease please pay phone
The back of my car, automatic teller
Man, you're gonna go far
Man, you're gonna go far
Flaccid, the best in the world
Apology glitter for the flitter with the punk girl
God knows you like it
We all know about you, sucker
Man you're gonna go far
You're world champion now
You're world champion now
Champion, champion
You wanna champion or be a homeboy
I'm a macho fucking number one champion
You want a champion or be a homeboy
Macho fucking number one champion
You want champion or be a homeboy
I'm so sorry
