Sweet & Low

The Butterfly Effect

Sweet and low
Sweet and low
You put your fingers into my mouth
Tastes good but look what?s coming out
This time we?ll see what it?s all about
It's not like you knew
Sweet and low
Secretly purging your denial
Come lets go for awhile
And see this time what?s suppose to be
It's not like you knew
Sweet and low
Sweet and low
This is your life, this is your life
This is your life, this is your life
This is your life, this is your life
To ordinary you?ve got it going
You?ve got it going on
Don?t say your boring say it ain?t so
Say it ain?t so
You never have to make it show
You?ve got to let it show
This life is scary, I oughta know
