

1.000 Eyes

Death

Crossing the line into the other side
Emerging as prisoners to the emptiness of the time To the left and to the right, from behind they're out of sight
Plunging into a new found age of advanced observeillance
A worldwide, foolproof cage Privacy and intimacy as we know it will be a memory
Among many to be passed down to those who never knew Living in the pupil of 1,000 eyes
(1,000 eyes, 1,000 eyes, 1,000 eyes) Was it overlooked in front of all our faces?
Now, all the mistakes and secrets cannot be erased Viewing the blind complexity
By which laws were justified to erase simplicity To the left and to the right, from behind they're out of sight
Plunging into a new found age of advanced observeillance
A worldwide, foolproof cage Privacy and intimacy as we know it will be a memory
Among many to be passed down to those who never knew Living in the pupil of 1,000 eyes
(1,000 eyes, 1,000 eyes, 1,000 eyes) We are enslaved now
