This Is My World

Andrew W.k.

This is my world
This is my world
This is my world
This is my world
This is my world
This is my world
Everybody, this is my world
And I live upon my landscape
Inside a dream of my creation
Product of my imagination
I am the king of my own nation
My world an overload of endless wonder
For a design of grand delusion
Into a private life seclusion
How I delight in such confusion
This is my world
'Cause this is my world
And this is my time
I live in my world
I live in my mind
'Cause this is my world
This is my world, woah
'Cause this is my world
This is my world, woah
My world, I have a view into your bedroom
Where I can watch you with desire
With all the passion you inspire
Inviting your secret admirer
This is my world
'Cause this is my world
And this is my time
I live in my world
I live in my mind
This is my world
This is my world, woah
This is my world
This is my world
This is my world
This is my world

This is my world
This is my world
This is my world
This is my world, woah
This is my world
This is my world, woah
This is my world
This is my world, woah
This is my world
This is my world, woah
This is my world
This is my world, woah
This is my world
This is my world, woah
This is my world
This is my world
My world, my world
My world, my world, my world
This is my world
This is my world
My world, my world
My world, my world, my world
