Scarred (Single Version Featuring Wes Borland)

Combichrist

You ever get the feeling that everything
In America is completely f***ed upThe choice you make will be your own
A pattern forms, too scarred to feel
Too scared to follow and so am I
Wisdom will cower and so will IWords breed lies
Beneath it all
The death in your veins
The life on your kneesThe rain will wash me away
All structures collapse
Nothing covers my grave
Only destruction remainsWords breed lies
Beneath it all
The death in your veins
The life on your kneesThe rain will wash me away
All structures collapse
Nothing covers my grave
Only destruction remainsThe rain will wash me away
All structures collapse
Nothing covers my grave
Only destruction remainsYou ever get the feeling that everything
In America is completely f***ed upThe rain will wash me away
All structures collapse
Nothing covers my grave
Only destruction remainsThe rain will wash me away
All structures collapse
Nothing covers my grave
Only destruction remains
