

# Lovely Tonight

**Joshua Radin**

I need you to know this won't be broken  
And all that we said will not be lost into the dawn  
And you would be the last thing I saw coming  
I'm still surprised  
You are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you  
Alone we are fine; but when we're two, we are eternal  
The moons have aligned our separate lives; here become one  
And you would be the last thing I saw coming

I'm still surprised  
You are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you  
All my life I've lived alone without you  
All this time I couldn't find a way to belong  
And you are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you
