Into the Circle (feat. Colt Ford Jamie O'Neal)

Kaylee Rutland

Kaylee Rutland - Into the Circle

I used to stand in front of my TV
With a hairbrush and a dream
And pretend that I was on that Opry stage
On a six foot round old piece of wood
Where so many others stood
Singing songs that could
'Cause lives to change
I don't let the ones who say I can't
Take the hope someday I'll get my chance to

Step into the circle and the light
Of all the stars that shined so bright
Every Friday night
What would it feel like
To have a dream come true and feel the past
Reach out and take my hand
Be brought at last
Into the circle

I remember how I first stood there
Trembling and scared
Thinking of the footsteps I was standing in
I could feel them watching from above and prayed I was good enough
To add my voice to
The ones I grew up with
When I was a girl with a dream that seemed
Impossible to me

To step into the circle and the light
Of all the stars that shined so bright
Every Friday night
What would it feel like
To have a dream come true and feel the past
Reach out and take my hand
Be brought at last
Into the circle

What a feeling it must be

To know I'm the one they've come to see
No words can describe the view
Of all those faces singing back to you

Wanna
Have a dream come true and feel the past
Reach out and take my hand
Be brought out last
Into the circle, some day, one day

Wanna step into the circle
It'll be just like I'm home
Where all the greats have stood
I always dreamed I could
Be standing just like Dolly
Loretta and Patsy Cline
Hairbrush to the Hall of Fame
One day they'll know my name
I'll sing because I love it
I'll sing because it's me
I'll sing for all who listen
My song will set me free
I've always been a dreamer
I know I'm not alone
Thank God dreams do come true
And that circle call me home
