Daydream

Leon Haywood

I can do nothing but daydream, baby
All I do is daydreamI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyI'm sitting on my job
And I'm staring into space, yeah
My supervisor's watching
I know I'll soon be replaced, yeahI can't keep my concentration
No matter how hard I tryI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyThe day is long and it's so boring
'Cause I'd rather be with you
But I've got to put this time in
Because I've got some bills thats dueI can't help reminiscing
About the warmth of your kissesI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, baby, ooh babeOn the crowded bus with stand room only
Trying to make it home to you
My feet are sore, my back is aching
I'm so glad the day is throughI'm in deep medication
Some folks say I'm in a tranceI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream about you, babyI can do nothing but daydream
I daydream about you, baby
I can do nothing but daydream
I daydream
