# Someday

## Sammy Hagar

Dim the lights when you're not sleeping
Lay the book down on the floor
Spread the dream across your pillow
Unlock the door
And make a wish, love will find you
Cuddle safely in your room
Close your eyes, go to sleep now
If you're to rise before noon

Guardian Angels coming back to me
Bring me visions like I've never seen
Inspiration in my dreams
And let your lovelight shine down on me
And love, wherever you are
Come and find us no matter how far away
And teach us the way to our soul
That hollow feeling, ever no more
