# Poster Princess

## Jet Black Stare

I saw the face of a girl at a place selling books at the check out line
Found a black tattoo on her back, she was looking like the dancing kind
Her secret lies beneath the smoke and the neon lights
She works that stage every night
Shes a poster princess and a dancing queen
She knows (she likes the lights and the center of attention)
Her secrets safe with me
Now I'm falling for her and the nights not over
I know (she likes the lights and the center of attention)
Shes coming home with me
Morning comes, its a ringing alarm and shes trying to get to work on time (get to work on time)
I'm just seeing what shes trying to be
Shes and angel with the devils eyes (with the devils eyes)
Her secret lies beneath the smoke and the neon lights
She works that stage every night
Shes a poster princess and a dancing queen
Now I'm falling for her and the nights not over
I know (she likes the lights and the center of attention)
Shes coming home with me

Come on....

Shes coming home with me
Shes a poster princess and a dancing queen
She knows (she likes the lights and the center of attention)
Her secrets safe with me
Now I'm falling and the nights not over
I know (she likes the lights and the center of attention)
Shes coming home with me
