

# Flow

## Rumah Sakit

Forget to look if you smile  
Long time no see, beautiful eyes  
I spent my time in the night  
To know you not, growing the lies  
Reach what desire i should, wash my face with splash

I felt myself so delight  
The garden filled with flower eyes  
I spent my time in the night  
To show you that beautiful sky  
Reach what desire i should, wash my face with gold

Flow your dream with my mind  
Flow my dream with your mind  
Have i told you to fall  
Feeling right to the whole by my side

Forget to look if you smile  
Long time no see, beautiful eyes  
I spent my time in the night  
To know you not, growing the lies  
Reach what desire i should, wash my face with splash

I felt myself so delight  
The garden filled with flower eyes  
I spent my time in the night  
To show you that beautiful sky  
Reach what desire i should, wash my face with gold

Flow your dream with my mind  
Flow my dream with your mind  
Have i told you to fall  
Feeling right to the whole by my side

- Interlude / Solo -

Flow your dream with my mind  
Flow my dream with your mind  
Have i told you to fall

Feeling right to the whole by my side

Flow your dream with my mind

Flow my dream with your mind

Want you to be my flower

In my heart
