California

Cavo

Sitting in a dark room
Falling to pieces
Try to find the right words
So you can sing along
Wear it like a tight noose
I don?t wanna feel this
Might of made a wrong move
Now I?m all alone
I never know which way to go
A million thoughts I can?t control
The city sleeps, but I can?t close my eyes
California

California
Drowning in a bright room
Faking the feelings
Wonder if the right words
Are even here at all
I?m living through the hardest part
In a city full of fallen stars
A million dreams I can?t close my eyes
California
California
How many miles until I lose myself
