

# Dripping

## Hirnlego

Find me, want to want  
Never what you see  
Calling, calling, the depth becomes  
Grab a hold of my face, so numb  
Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you  
Touch you, feel the cold  
Friendships grow so old  
Difference, difference, never to know  
Clearing my mind as I go  
Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you  
To you, to you  
Breaking through to you  
Breaking through  
Breaking through  
Breaking through  
To you, to you  
Breaking through to you  
Breaking through  
Breaking through  
You take away my mind  
I'll take away your pride  
Soar far fly away  
I'm breaking through to you  
Soar far fly away  
I'm breaking through to you  
I'm breaking through to you
