Say When

Starship

No na, na na na na na na
You're into my thoughts like a dream on the run
You're a vision of hope in a world come undone
When the feeling is strong and you know that you love someone
Make it tonight, make it forever and a day
Baby reach out to me, baby reach out to me
And tell me when it's right[Chorus]
Say when, when love can steal your soul
Say when, when love can take control
Say when, when love can make you whole
Just, say when, just, say when
Say whenI stand in the dark all alone in my room
And I stretch out these arms to a girl on the moon
Make it tonight, make it forever and a day
Baby reach out to me, baby reach out to me, come on reach out to me
And tell me when it's rightSay when, when love can steal your soul
Say when, when love can take control
Say when, when love can make you whole
Just, say when, say when, say when, say when
Just say when
