

I Gotta Get To You

Christina Milian

The way... with me...
The way... with me...I gotta get to you... how far...
I gotta get to you... you are...
I gotta get to you...It's not like me to fall at first sight
I'm only telling the truth.
It took a little while to realise
I was falling for you!Cause all I see is your face
You really blow me away
With all that you do
And if I see u again,
I'll take u into my hands
I'm calling out say:Take my heart, I'll let u lead the way
I gotta get to you
Stars are lost without u here with me
I gotta get to you...No matter how far...
I gotta get to you
Wherever you are...
I gotta get to youI wake up to the break of sunlight
You're all in my head
It's like u put a hole in my mind
But we haven't metNow all I see is your face
You really blow me away
I got to have you
And if I see u again,
I'll take u into my hands
I'm calling out say...Take my heart, I'll let u lead the way
I gotta get to you
Stars are lost without u here with me
I gotta get to you...No matter how far...
I gotta get to you
Wherever you are...
I gotta get to youTake me now, now I'm waiting
Look at me anticipating
Look at me I'm falling for you... [x2]Now or never, forever,
Take you to another level,
I wanna be with you
Now or never, forever,
Take you to another level
Come on, I'm waiting for you!Take my heart, I'll let u lead the way

I gotta get to you
Stars are lost without u here with me
I gotta get to you...No matter how far...
I gotta get to you
Wherever you are...
I gotta get to you Take my heart, I'll let u lead the way
I gotta get to you
Stars are lost without u here with me
I gotta get to you...No matter how far...
I gotta get to you
Wherever you are...
I gotta get to you!
