

# Happy People

## Ernie Haase & Signature Sound

Verse One:

Everybody clap your hands  
Cause God is alive and well  
somebody say amen  
somebody start ringing a bell  
Heaven knows there's a whole lot of trouble  
living down here below  
But we're smiling because when this old life is over  
we've got some place else to go

CHORUS:  
God's people are happy people  
Happy all of the time  
joy higher than the tallest steeple  
love of the unstoppable kind  
More than 10 million reasons  
flooding through my soul and my mind  
God's people are happy people  
Happy people shine

Verse Two:  
Everybody shout for joy  
There's life down here to be lived  
Be a friend to the world  
see how much love you can give  
life is more than the air you're breathing  
or spending more than you can afford  
but happy are the people who always remember  
that happiness is the Lord

REPEAT CHORUS
