

We Are The Industry

The Bled

You plug me in and turn me on
Turn on me
I am your device of manufactured hope
Manufactured hope You plug me in and turn me into wires and blood
I am your trophy wife
Shaking hands with your guests
Hi, my name is Yours
Shaking hands with your guests
Hi, my name is Yours The unfortunate ones will be spared
We are the industry
I'm sorry but your name is not on the list
We are the industry
Your results do not comply
We are the industry
Your ashes will fuel the machine
We are the industry You plug me in and turn me on
Turn on me
I am your device of manufactured hope
Manufactured hope You plug me in and turn me into wires and blood
I am your trophy wife
Shaking hands with your guests
Hi, my name is Yours
Shaking hands with your guests
Hi, my name is Yours We are the industry
We are the industry
We are the industry
We are the industry We are the industry
We are the industry
We are the industry
We are the industry We are the industry
We are the industry
We are the industry
We are the industry We are the industry
We are the industry
We are the industry
We are the industry We are the industry
We are the industry
We are the industry
We are the industry We are the industry
We are the industry
We are the industry
We are the birth and the death The birth and the death

The birth and the death
The birth and the death
The birth and the death
...
