Shakedown

Mario

Yeah, I caught you peepin', corner of my eye
I?ll be, oh, never sleepin', guess you think I'm fly
I'm tryin' to take a girl home tonight, you see
Tonight VIP belongs to me
Entourage, fresh whips and you already know
Got the tweeties chirpin', just turned out my show
All you got to do is shake that thang for me
Ladies, if you feel me just come have a look at me
And the club is thick, tell them flip the switch
When I'm in here we all goes down
Here's your cup, baby, take a sip
Tell the waitress bring another round
Make it shakedown, mama, like cops on the block
Can you move in and around like rims that don't stop?
Now twist your hips, mami, lick you lips for me
Drop it and make it sway
Now you stirrin' up them hips like sugar in a pot
Let me chase that ass down like licks on the rocks
Now twist your hips, mami, damn, I love the way
You drop it and make it sway
Listen, you do this every weekend, yeah, that's how that go
Penoes level sweet, fridge stacked full of more
Stretch caddies on call ready to roll
Got the after party, put 'em up, they tryin' to go
While I grab the keys and pump them in the front
Four, five and sixes, teach you how to stunt
Send them models to the back to wait for me
Twist it off the ?Lac, girl, you know it's time for me
And the club is thick, tell them flip the switch
When I'm in here we all goes down
Here's your cup, baby, take a sip
Tell the waitress bring another round

Make it shakedown, mama, like cops on the block
Can you move in and around like rims that don't stop?
Now twist your hips, mami, lick you lips for me
Drop it and make it sway
Now you stirrin' up them hips like sugar in a pot
Let me chase that ass down like licks on the rocks

Now twist your hips, mami, lick your lips for me
Drop it and make it sway
We got this club scene poppin', it ain?t, ain't stoppin'
Cops tryin' to tell us to leave
Let that ass keep droppin', fellows keep watchin'
Gonna let you peep my steves
We got this club scene poppin', it ain?t, ain't stoppin'
Cops tryin' to tell us to leave
Let that ass keep droppin', fellows keep watchin'
Gonna let you peep my steves
Make it shakedown, mama, like cops on the block
Can you move in and around like rims that don't stop?
Now twist your hips, mami, lick you lips for me
Drop it and make it sway
Now you stirrin' up the mix like sugar in a pot
Let me chase that ass down like licks on the rocks
Now twist your hips, mami, damn, I love the way
You drop it and make it sway
Make it shakedown, mama, like cops on the block
Can you move in and around like rims that don't stop?
Now twist your hips, mami, lick you lips for me
Drop it and make it sway
Now you stirrin' up them hips like sugar in a pot
Let me chase that ass down like licks on the rocks
Now twist your hips, mami, damn, I love the way
You drop it and make it sway
