

Run

Eric Clapton

Love on my mind, I used to be
Living it up, fancy free
Then one night it came to an end
I met that girl and the trouble began
Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me? I was hooked with just one look
Easy prey, child's play
I knew this girl was no one night stand
Felt just like putty in her hands
Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me? Got no answers, got no cure
But one thing I know for sure
This is the girl, she's the one
She makes it so hard for me to run
Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me? People tell me, you might as well face it
She's covered all the bases
You might as well face it
She's covered all the bases
Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me? Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me? Something inside of me keeps on telling me to run
Whatcha gonna do to me?
Something inside of me keeps on telling me to run
Whatcha gonna do to me?
