

# Pills

## New York Dolls

As I was lyin' in a hospital bed  
A rock 'n' roll nurse goin' to my head  
She says, "Hold out ya arm boys or stick out ya tongues  
I got some pills I'm gonna give you some" Said you go to my head, to my head  
A rock 'n' roll nurse, goin' to my head  
To my head, to my head  
As I was lyin' in a hospital bed A little pill for my legs but that didn't ache  
Tried some pills for my heart but a little too late  
Got some pills for my love to try to get me at ease  
When a rock 'n' roll nurse shook me down to my knees Said you go to my head, you to my head  
A rock 'n' roll nurse, goin' to my head  
To my head, to my head  
As I was lyin' in a hospital bed I got the rock 'n' roll nurse Nursey nursey, well I don't see  
And I can't understand what you're doin' to me  
Said you give me the pills, then you give me the shot  
You got me wonderin' what is worse I got She went into my head, she went to my head  
A rock 'n' roll nurse goin' into my head  
To my head, into my head  
As I was lyin' in a hospital bed I got the rock 'n' roll nurse, she's makin' it worse  
Keeps on shootin' it right on into my head Doctor, doctor, doctor, run here and see  
I don't dig the job the nurse givin' me  
Gives me the shots, gives me the pills  
Got me takin' this junk against my wills Said she went into my head, shoved into my head  
A rock 'n' roll nurse goin' into my head  
To my head, to my head  
As I was lyin' in a hospital bed, and doctor-
