Where Did The Sun Go?

Example

Verse 1:
I've been feeling some weight on my shoulders
I've been carrying a shit loads baggage
And you carry this through, you're a soldier
But now your making claims for the damage
Chorus:
Together, forever, it's something, their selling us
The pressure
(unknown lyric)
Someone tell me, where did the sun go? (X3)
Verse 2 (rap):
Let me tell you how it exactly is
So hard, hard to find happiness
Too many faked it, actors/actresses
Don't let em' bight you
Spot the Dracula
One day everything immaculate

Next day someone took your Capulet
Another day i'm gonna feel miraculous
looking for the sun man, now i'm an activist
Chorus:
Together, forever, it's something, their selling us
The pressure
(unknown lyric)
Someone tell me, where did the sun go? (X5)
Verse 3 (rap):
Late to the party- taking it too far
Rabbiting away- zippidy-do-da
If they ask you, last man standing
Hustling, gambling, putting my hand in
I probably shouldn't mess with my heartbeat
It starts sweet, then it gets dark quick
(Unknown lyric) no chance, always gonna be another girl on the market
Someone tell me where did the sun go? (X5)
