

# Jurass Finish First

## Jurassic 5

Yo, because of cash in the purse, guns blast in the hearse  
A vast universe when the last is the first  
The past been a curse, I need some aspirin to nurse  
It's your casket in earth, or my ass when it hurts  
A passionate burst of some last-minute work  
First the human bodies are livin' last in this earth  
Puffin' grass when it works, a bastard at birth  
But at last planet earth, 5 jurass finish first  
Stashed in this verse  
Burnin' like gas on a torch  
Graspin' a thought  
Some don't see past their front porch  
Masked in a smirk  
No doubt my class been alert  
Verbal splash for your thirst, 5 jurass finish first  
Yo, because of crooks in the game no one's actin' the same  
Not mentionin' no names, merely passin' the blame  
Your ass been in flames since the cash went Ka-Chang  
Now you can't stand the rain when my crew bring the pain  
You a masculine myth who I constantly diss  
As I bond with the fish, understand we the 5th  
Platoon, hit the dirt, wish you well, wish you worse  
Your ass been cursed, 5 jurass finish first  
Bringin' it back from the lost, we have to report  
The trash on the chart makin' you have to resort  
To leave the record store instead of quenchin' your thirst  
But at last planet earth, 5 jurass finish first  
Yo, because of passin' the course wife askin' divorce  
Takin' half of your cash, now you bask in remorse  
Turnin' rap into sport, I've mastered the part  
'Cause the trash on the chart leave you gaspin' for art  
Now if you've mastered the art, I'm askin' with force  
  
To mass of your thoughts, to your ass is a corpse  
Cover grass in a burst, unfasten your purse  
Give your cash to the clerk, 5 jurass finish first  
Because of tricks of the trade, some are virtual slaves  
A smirk will get raised once the pen hits the page  
While your thoughts of the stage and perhaps getting paid

Relax in the shade, time passin' in days  
I'm searchin' for ways to avoid the charade  
'Cause when voices are laid, choices are made  
Be not afraid, people plastic on earth  
Verbal blast 'bout to burst, 5 jurass finish first  
5 jurass finish first  
5 jurass finish first  
Yo, because of passin' the torch, puffin' pipes with a bouche  
You a hype livin' loose with your life in the noose  
You invite many fools when you light chemicals  
Night of the livin' ooze, your ego makes many bruise  
You need to watch what you choose, what you give is what you get  
Some are lackin' intellect in their quest for a check  
Is it love or respect, does the subject get you vexed?  
Only 4 bars to wreck, the situation is complex  
Yo, you in constant pursuit to be the last in the house  
Where's your wallet? With the wife, deep stashed in her blouse  
Like "without a doubt" you can catch me on the B-side  
'Cause the one who wins the war  
Is the one without pride  
J5 make you feel a lickle gaseous at first  
Martin Lawrence and yes I make you ask "is that lurch?"  
Either try this or lyrical madness that works  
Give your cash to the clerk, 5 jurass finish first
