

As Above So Below

British Murder Boys

Far and away out on the edge
There's a difference on the French
Turn it around, closely inspect
Evolution onto the [Incomprehensible]
Take a look around
No, we're not done and we never will be
Look at what I've found, harmony, yeah
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
Blink of the night, natural select
Infinite ways, butterfly effect
All for the one, the first and the last
The future, present is past
Memories have now become meaningless
And history is what comes next
All that is left, our dreams and wishes
Come to accept, it is what it is
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
