Dead Inside

Project Theory

(VERSE 1)
I have nowhere to go and I hurt inside
Alone and no one can help me I feel so uptight
Maybe you've lost the war but you can win the fight
Choice is yours to make it and I hope you make right
Now, I think you love it when you see me falling down
But, now it's too late cause I start another round
You always play with your rules it's like your game
You've lost your path and I follow my lane...(CHORUS)
Dead inside, you've left me hear, can I ask you why?
I can't fight (Something is pushing me and I can't deny it)
From the top, I fell to bottom for one more time
I can't fight (Something is pushing me and I can't deny it)(VERSE 2)
Your lies are all a part of your fucking game
But only on your fantasy you have the fame
I have a question for you do you remember me?
The way you hurt me is enough to make me do the same
now, your words are deadly but you really think you'll stay?
My second question do you have something to blame?
Don't think about it cause I think I know the answer,
and then I know that all the pain soon will be gone...(CHORUS) (x2)
Dead inside, you've left me hear, can I ask you why?
I can't fight (Something is pushing me and I can't deny it)
From the top, I fell to bottom for one more time
I can't fight (Something is pushing me and I can't deny it)(BRIDGE)
I won't pay, your fault now, this time I win the round (x6)(CHORUS)
Dead inside, you've left me hear, can I ask you why?
I can't fight (Something is pushing me and I can't deny it)
From the top, I fell to bottom for one more time
I can't fight (Something is pushing me and I can't deny it)
