

What I Love About Your Love

[Jana Kramer](#)

The moon is brighter than the morning sun
The birds sing sweeter and the bees they buzz
A silly little song and we're humming along Dancing like a dandelion, swaying in a breeze
Floating like a butterfly, falling like an autumn leave
It's no ordinary thing between you and me That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enough
That's what I love about your love You lean over my shoulder and it's over and done
Ain't nothing like a feeling of finding that one
It's the piece of the puzzle
Ain't no doubt about it
It's a good kind of trouble That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enough
That's what I love about your love It puts the hun in my honey
Oh it puts the fun in my funny
It's right on the money
And all of the above That's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enough That's what I love about your love
That's what I love about your love
That's what I love about your love The moon is brighter than the morning sun (That's what I love about your
love)
The birds sing sweeter and the bees they buzz
