Show You the World

Neverstore

Don't be afraid tonight, I will stay here
I'm right here beside you, I'll be anything, you want me to be
I just don't wanna wake up without you tomorrow
Please don't leave me now.I wanted to show you the world...Just a little bit I stray, took a turn and lost my way
Think I'm gonna stay here for a while
Walking down memory lane, nothings gonna be the same
Without you I don't feel aliveOne perfect night, I lost myself forever in your eyes
I'm on your side, for all time.Don't be afraid tonight, I will stay here
I'm right here beside you, I'll be anything, you want me to be
I just don't wanna wake up without you tomorrow
Please don't leave me now.I wanted to show you the world!Ohhh...Don't be afraid tonight, I will stay here
I'm right here beside you, I'll be anything, you want me to be
I just don't wanna wake up without you tomorrow
Please don't leave me now.I wanted to show you the world!(Dont leave me now!)
Well I'll be anything
I'll be anything
I'll be anything
You want me to bePlease don't leave me now
I wanted to show you the world...
