Crying for Eternity

Paradise Lost

Lying here alone and cold
And I'm waiting fr the dawn
Laughter at my every move
As if crippled by my thoughts
And I'm burning cold, burning coldYou prevail in the end
Hating the disgrace
I'm taken all the more
And I'll take all that I see
You'll do it all for meAll the more, you feed off my rejection
All the more, I tear your soul in twoLonely are my tears of pain
And I'm punished by their cause
I'll rest on my burning throne
A release I move towards is eternal sleep
