

Dance Miserable

[Patrick Stump](#)

The right side's in the wrong
And what's left's just holding on
And the public has been privatized
But I believe in something here on earth
When did the punks stop being mad?
They penned love songs while we got had
The hippies sold out traded pot for coke
Moved to the 'burbs found god in a vote But I believe in something here on earth
Just dance like you're disappointed in the world
Just dance miserable
Sorry Hank, there's room in here
Had squares in the oval for about 8 years
It's as bad as I remember and it's only getting worse
It only gets better when it hurts But I believe in something here on earth
Just dance like you're disappointed in the world
Just dance miserable Unemployed?
Dance
Foreclosed?
Dance
Uninsured?
Dance
Climate change?
Depressed?
Depressed?
The decline of western civilization?
